

# LAKE AND LAGOON DREDGING LTD

## **Environmental Policy**

Comply with all environmental legislation and regulations and strive to achieve best environmental practises.

Comply and liaise with the client's environmental policies and regulations.

Identify environmental risks on a site by site basis.

Employ working practises and environmental protocols to reduce and minimise those risks.

Develop and maintain hazard and emergency procedures.

Continually monitor projects and work with clients to remedy or rectify any environmental damage.

Ensure all staff are working in a safe environment (see H&S policy) and are continually made aware of any potential deleterious impact of their work practises on the environment.
